

Pine River Watershed Initiative Network

Our Vision

"Clean water and a healthy ecosystem within the Pine River Watershed"

Our Goals

1. To explore and encourage all possibilities for improvements of the Pine River Watershed.
2. To promote dialogue and education about watershed processes among all stakeholders within the Pine River Watershed (residential, agricultural, etc.).
3. To make stakeholders aware of existing or new programs and sources of funding that can improve the Pine River Watershed e.g. Environmental Farm Plan grants, Stewardship Rangers, Source Water Protection, etc.
4. To raise awareness of the needs of the Pine River Watershed and coordinate activities with stakeholders, government agencies and environmental groups e.g. Source Water Protection Committee, Lake Huron Coastal Centre, SVCA, etc.

Our Members
