Community Living supports 120 families throughout the area. November 24<sup>th</sup> CLKD is having a kick-off event. The new build is approximately 9000 sq feet and will house 12 individuals.

CLKD is requesting any donations from Huron-Kinloss, or fees that could be waived. The Clerk will send a response and the request will be deferred to budget deliberations.

1.5 Nuclear Waste Management Project Team 8:30 p.m.

Paul Austin, Jo-Ann Facella, Mike Krizanc and Ben Belfadhel will be attending to present Council with information on Step 3 in the Adaptive Phased Management Siting Process.

**STAFF COMMENTS:** The following information has been provided by NWMO regarding their presentation:

**NWMO Siting Process – Step Three: Preliminary Assessments**

Communities that express interest in learning more about the NWMO and its siting process, and which have passed an initial screening, can request a preliminary assessment of potential suitability. At the request of the community, the NWMO will

conduct a feasibility study collaboratively with the community to assess, in a preliminary way, the suitability of the community and associated site(s) to host the project. These studies are an opportunity for both the community and the NWMO to explore four key questions that will be important in assessing the suitability of communities for the project.

The key questions to be addressed in feasibility studies are:

- Safety, security and protection of people and the environment are central to the siting process. ***Is there the potential to find a safe site?***
- The project will be implemented in a way that will foster the long-term well-being of the community. ***Is there the potential to foster the well-being of the community through the implementation of the project, and what might need to be put in place (e.g. infrastructure, resources, planning initiatives) to ensure this outcome?***
- At a later step in the process (Step 5), the community must demonstrate it is informed and willing to host the project. ***Is there the potential for citizens in the community to continue to be interested in exploring this project through subsequent steps in the site selection process?***
- The project will be implemented in a way that will foster the long-term well-being of the surrounding area. ***Is there the potential to foster the well-being of the surrounding area and region, and establish the foundation to move forward with the project?***

The NWMO will provide information about preliminary assessments, supporting programs and activities involved in step three of the siting process.

If Council decides to move forward into Step 3 a resolution will be brought forward for consideration at the November 19<sup>th</sup>, 2012 Council meeting.

**ACTION:** A power point presentation was provided for Council. An open house early in 2013 will be held to help with citizen concerns and describe Phase 3 of the feasibility study process. Once the Community Liaison Committee is established they would help corresponded with citizens and have ongoing conversations with locals with a regular presence in the community. The Community Liaison Committee is encouraged by NWMO for all communities that enter step 3. The Committee members should be citizens who would be interested in learning about the project and are willing to assist in the learning process within the community. Would be helpful to have people with a diversity of view and willing to learn.

It was clarified that after Phase 1 of Stage 3 is complete the number of communities involved will be substantially minimized prior to moving into the detailed feasibility studies for Phase 2.

Mayor Twolan stated that he feels it is important for Council to move to Step 3. Council must remain involved in the learning process. The resolution will be brought to the November 19<sup>th</sup>, 2012 meeting for consideration.

5.4 Trees on Bluff at Point Clark Community Centre

We had some concerns with potential tree risks associated with the property adjacent to the Point Clark Ball Diamond, the play ground equipment, basketball court, and the Point Clark Community Centre building.

STAFF COMMENTS: I inspected the trees with Brad Savage and County Forestry Technician Ken Goldsmith. We determined that approximately ten large trees are considered hazardous (wood rot somewhere in tree presenting a threat), and would follow sound forestry and risk management practices by having them removed. I have secured pricing to drop all trees for a total of \$600.00 during the winter months. Brad Savage is donating about \$1500.00 of his services for the project. I would also suggest tendering out the trees that are being cut for firewood. We estimate about twenty to thirty cord of wood with estimated value of \$30.00 a cord may be available in the tender. We seek your approval to proceed with the tender of the cut trees for firewood.

ACTION: Approved.

**9.3 Landfill Compactor**

In July the Township entered into an agreement with Marcel Equipment Limited for the rental of a 2006 816F landfill compactor. The Director of Public Works is recommending we terminate the existing rental agreement and purchase the machine.

STAFF COMMENTS: We had originally estimated the purchase of a new machine to be about \$350,000.00 and we hoped to have \$170,000.00 in the equipment replacement reserve by the end of this Council term, leaving the rest to be funded from the 2015 budget. Purchasing this machine sooner makes financial sense as the purchase price of the compactor is \$191,376.64 including the trade in and allowance for our lease payments to date. The equipment replacement reserve has grown faster than expected and at the end of 2011, we already had \$147,000.00 for this purpose. Therefore, if we have a 2012 contribution to reserve, the entire purchase can be funded through the equipment replacement reserve. If Council concurs, a by-law to authorize the purchase will be brought forward on November 19<sup>th</sup>, 2012.

ACTION: Approved. Bring the By-Law forward.

**10.0 TRANSPORTATION**

STAFF COMMENTS: Included in the report.

ACTION: Approve staff recommendations and bring a resolution forward to grant pre-budget approval.

**11.3 Holiday Shopping Pass**

This past summer, we were successful in receiving funding from the Spruce the Bruce Program for a downtown Holiday Shopping promotion for Ripley and Lucknow.

**How the promotion works:** Holiday Shopping Passes will be distributed throughout the downtowns in Ripley and Lucknow and made available online to download off the Township website. Beginning the first of November shoppers can pick-up a Shopping Pass and each time they make a purchase at a participating business between November 9<sup>th</sup> and December 24<sup>th</sup>, the value will be stamped on the card in \$10 increments. Once a total of \$150 has been spent, customers fill out their contact information on the card and submit it to the Township for a chance to win one of three \$150 shopping sprees at participating businesses.

#### 11.4 Cultural Action Plan

During the week of October 8<sup>th</sup>, Jeremy Freiburger and his team at CoBalt Connects hosted three community consultants and conducted several interviews with community champions and representatives from various community organizations and groups. On their last day, they went to both elementary schools in the Township to hear from our youth. His team is busy compiling the information they collected during their weeklong stay in Huron-Kinloss and will present a draft Cultural Action Plan to the Steering Committee in January.

We are currently looking for members to sit on this Steering Committee. We will be meeting two or three times to look over the draft Cultural Action Plan and provide comments, as well as to review the implementation plan. Jeremy and his team will be back in January to conduct a few more interviews and gather more information about the community.

STAFF COMMENTS: We are requesting that one Council representative sit on this Steering Committee.

ACTION: Deputy Mayor Gamble will sit on the committee.

#### 11.5 Roger Brooks Brand Camp

Just recently, Bruce County announced that branding expert Roger Brooks of Destination Development Inc. is coming to Southampton in November to help build and enhance our community's identities. They are looking for six to eight people from each community to attend the "Brand Camp".

The Brand Camp will be held at the Southampton Museum on November 13<sup>th</sup>-15<sup>th</sup>. Roger Brooks is an internationally renowned speaker and has worked with thousands of people and communities to inspire change. His company has developed a "Train the Trainer" style of "Brand Camp" that works with communities to guide them through the steps of developing a solid brand direction (what sets them apart from everyone else), a brand promise, initial product development and marketing recommendations. If you would like specific information on Roger and what Bruce County has hired him for, see: <http://www.destinationdevelopment.com/community-branding-marketing-programs/premier-community-brandcamp/>. Search his site for case studies to see examples of what he had done with other communities.

We would like 6 people from Ripley and 6 people from Lucknow to attend. Please note that the Brand Camp is 2.5 days. We recognize that this is a big time commitment and may conflict with work schedules; however, it is important that we have significant representation from each of our villages. **This is open to anyone who is available and interested in working on a committee to assist in downtown revitalization, not necessarily businesses owners.** If you know of someone in the community that might be interested, please let Taralyn know.

STAFF COMMENTS: Councillor Abbott is attending on behalf of the Lucknow Revitalization Committee. We are requesting that one Council representative attends this Brand Camp on behalf of Ripley.

ACTION: Deputy Mayor Gamble will attend. Don Murray provided a name of a potential Lucknow representative to attend.

12.0 **GENERAL GOVERNMENT**

12.1 Integrated Accessibility Policy

The Integrated Accessibility Standards Regulation has established three specific standards under the Accessibility for Ontarians with Disabilities Act, 2005; Information & Communications, Employment and Transportation Standard. Municipalities must develop, implement and maintain policies governing how the organization achieves or will achieve accessibility through meeting the requirements referred to in the Integrated Accessibility Standards. The policies will show the organizational commitment to meet the accessibility needs of persons with disabilities in a timely manner. We must also develop a multi-year accessibility plan outlining the township's strategy to prevent and remove barriers and meet its requirement under this regulation.

STAFF COMMENTS: The Deputy Clerk has prepared a draft Integrated Accessibility Policy for your review. The required multi-year plan will be brought forward to a future meeting. If Council concurs with the policy a by-law will be brought forward to the next meeting to adopt.
