Subject: golf cars

Why are you telling people to contact their insurance about physical damage and liability for golf carts?

As I have been a licensed broker for 35 years I can tell you there is no coverage off of your own property.

By approving this project you are being negligent. Taking money from people and allowing them to drive on the road doesn't change anything. A catastrophic accident will result in a law suit against the township - no matter what someone signs.

I have just recently found out these Golf Cars do not have to be licensed which we in Point Clark were unaware of this and feel the potential for lawsuits against the township could happen if there is potential

Very disappointed. I had bought a golf cart three years ago. I got to use it 1 year then I had to sell it or get ticketed. Now I can have one again but I sold it. Lost money on the sale cause it was used? What the heck? Nancy

Hi Kelly.

Thanks for speedy response.

I cannot believe that there is no mandate or requirement for insurance and that the township has put full time residents at risk by virtue of where we live.

I will respond at length when I get more time with all my concerns but will go on record now that I am adamantly opposed to this golf cart bylaw.

Paul

Hi Paul,

The Township recommends that anyone who operates a golf car to speak with their insurance agent regarding coverage and that if an accident should take place that the O.P.P. would need to be notified as all golf cars will be operating under the Ontario Regulation 407/21 Highway Traffic Act.

Thank you,

Kelly Lush

Since golf cars are not required to be insured what happens if a golf car hits and causes damage to my or anyone's vehicle. Who will pay the damages?
